Emmanuel Ojo

Senior Frontend Developer | Software Engineer

📍 Lagos, Nigeria | 📞 +2347067723270 | ✉ ojoemmanueltiwalade@gmail.com

🔗 LinkedIn: linkedin.com/in/ojo-emmanuel-86782a25a

TECHNICAL SKILLS

Frontend Development: React.js, Vue.js, Next.js, TypeScript, JavaScript, HTML, CSS, SCSS, Tailwind CSS, Chakra UI, Shadcn UI.

Other technologies: Node.js, MongoDB.

Performance Optimization: Code-splitting, lazy loading, caching, and bundle size reduction

State Management: Redux, Zustand, Vuex, React Query

API Integration: RESTful APIs, GraphQL, WebSockets, Firebase

Testing & Debugging: Jest, React Testing Library, Cypress

Build Tools & CI/CD: Webpack, Vite, ESLint, Prettier, GitHub Actions

Collaboration & Agile Development: Scrum, Jira, GitHub, Cross-functional teamwork

PROFESSIONAL EXPERIENCE

Senior Frontend Developer – MobileKings (October 2023 – Present)

- Led the frontend development team, mentoring junior developers and ensuring adherence to coding standards and best practices.
- Architected and optimized component libraries using Shadcn-UI, TailwindCSS, and Chakra UI, improving reusability and development speed.
- Improved performance by 40% through advanced optimization techniques such as lazy loading, memorization, and efficient state management.
- Spearheaded the migration from JavaScript to TypeScript, enhancing code maintainability and reducing runtime errors.
- Worked closely with backend engineers, UX/UI designers, and product managers to bridge the gap between design and implementation, delivering seamless user experiences.

Frontend Developer | Freelancer – McG Technologies (January 2020 – March 2023)

- Designed and developed scalable and modular UI components, improving reusability across multiple projects.
- Refactored existing codebases, reducing technical debt and improving maintainability.
- Led the testing and debugging process during a major website revamp, ensuring a smooth user experience.

- Gained expertise in agile development methodologies, collaborating with cross-functional teams in remote and hybrid environments.

PROJECTS & ACHIEVEMENTS

(Designed, developed, and deployed high-performance web applications with an emphasis on scalability and user experience.)

LANSTUR – A dynamic freelance marketplace with advanced search, gig listing, and ad promotion features.

DINE – A full-stack restaurant ordering platform with real-time menu updates, seamless checkout, and online payments.

TRADEWITHCHUN – A cutting-edge stock trading platform integrating real-time market data, copy-trading, portfolio management, and social trading features.

NYROESREIGN – A modern clothing e-commerce platform with AI-powered recommendation systems, advanced filtering, and a streamlined checkout experience.

BATR (In Development) – Details confidential until launch.

EDUCATION

🎓 National Diploma in Mechatronics Engineering

📍 The Federal Polytechnic Ilaro, Ogun State (2021 - 2024)

WHY HIRE ME?

- Expert in Modern Frontend Technologies – Proficient in building high-performance, scalable web applications using React, Next.js, Vue.js, and TypeScript.
- Proven Leadership & Collaboration Skills – Experience leading teams, mentoring juniors, and driving best practices.
- Performance Optimization Specialist – Expert in reducing load times, improving responsiveness, and optimizing code for peak efficiency.
- End-to-End Development Experience – Skilled in working with APIs, databases, cloud services, and DevOps.
